

ACCESS THE LATEST U.S. CLEAN TECH INSIGHTS

Subscribe to Clean Edge's Leadership Index Service

Clean Edge's U.S. Clean Tech Leadership Index provides an unparalleled analysis of the clean-tech marketplace, including data, trends, and insights. No other service offers such deep state and metro level tracking and understanding of the most relevant technology, policy, and capital developments in the U.S. clean-tech industry.

A MUST-HAVE TOOL FOR CLEAN TECH DECISION MAKERS

Economic development agencies, governments, NGOs, investors, corporations, and others key stakeholders use the Clean Edge Leadership Index as the go-to resource for unparalleled analysis of the emerging developments shaping the U.S. clean-tech landscape. The Indexes provide:

- **Comparative benchmarking** of clean-energy activities, based on rankings of all 50 states and the 50 largest U.S. metro regions
- **In-depth analysis** of technology, policy, and financing trends in each state and major metro region – including best practices and case studies
- **Complete data** showing which clean-tech sectors are expanding and what markets are ripe for development
- **Rich insight** on each state and metro region's relative strengths and weaknesses providing guidance for strategic plans and initiatives

“We find Clean Edge's research to be very useful in identifying opportunities in the clean-tech industry. Their thorough data is supported by sound analysis. They are on top of what is happening in the sector.”

TAKEO NAKAJIMA

Research Director for North America,
Japan External Trade Organization (JETRO)
